**TALENT-ACQUISITION TEAMS are highly skilled at finding people for their own industry.** Yet, even the best talent-acquisition teams know that some people are really tough to find – in fact, people who are just like them. Talent managers.

**That's where we come in.** We're Futura. We specialise in finding the very best people for in-house recruitment teams. People who really know how to recruit; people with talent-management experience.

We're good at it, too: we've been in business for over fourteen years and are one of the biggest and most successful companies of our kind.

We're not only trusted by talent-acquisition teams, we also deal with most leading firms in the recruitment industry itself – they come to us because they're geared up to find people for their clients, not the people they hire for themselves. We're better at finding those people for them: we're adept headhunters, connected with the best people in the talent and recruitment space. We're skilled at filling those hard-to-fill roles. We get the job done. We save time; we save money.

*Let Futura find your new talent acquisition team – freeing up your current talent managers to do what they do best.*
